Q1: What are the payment terms?

A1: Payment Terms: NET 30 days.

Q2: In regard to year over year price increases on OEM supplied products, will WRTA limit the absorbed manufacturer's price increase on OEM supplied products to (X) % on year 2 and year 3 of the contract?

A2: This ITB is intended to establish a firm-fixed price contract. The supplied cost proposal provides the opportunity to indicate pricing for each Calendar Year.

Q3: Can I get clarity on the Option C: Engine and Transmission unit cost installation? Does the engine and transmission have to both be supplied by the same vendor to do the installation of both components?

A3: A contractor may provide a proposal for all items or individual items listed on the Updated Cost Proposal Form included as part of Addendum 2. For a contractor proposing to only Remove and Install Engine and Accessories, then only Section C specifications that relate to the Engine and Accessories shall apply. For a contractor proposing to only Remove and Install Transmission and Accessories, then only Section C specifications that relate to the Transmission and Accessories shall apply. For a contractor proposing to remove and install both the Engine and Accessories and Transmission and Accessories, all Section C specifications shall apply.
